

GO GREEN EAT RESPONSIBLY

1

SUPPORT LOCAL

☒ Shorter distance requires less transport fuels... and less chemicals needed to keep food fresh

2

EAT LESS MEAT

☒ Meat production is very resources-intensive

3

EAT SUSTAINABLE FISH

☒ Many wild fish stocks are at the risk of disappearing entirely

4

CHOOSE ORGANIC

☒ Less use of fertilizers and pesticides protects the environment – and your health!

5

AVOID PACKAGING

☒ Packaging requires energy and resources just to end up in the trash
